Configure network access and connectivity for your server. The configuration selected below will apply to the selected server 'srinai123' and all databases it manages. [Learn more](#)

Firewall rules

The settings displayed below are read-only. They can be modified from the "Firewalls and virtual networks" blade after database creation. [Learn more](#)

Allow Azure services and resources to access this server

NoYes

Private endpoints

Private endpoint connections are associated with a private IP address within a Virtual Network. The list below shows all the private endpoint connections for this server. Note that private endpoint connections are defined at the server level and they provide access to all databases in the server. [Learn more](#)

Customize additional configuration parameters including collation & sample data.

Data source

Start with a blank database, restore from a backup or select sample data to populate your new database.

Use existing data *

None Backup Sample

Database collation

Database collation defines the rules that sort and compare data, and cannot be changed after database creation. The default database collation is SQL_Latin1_General_CP1_CI_AS. [Learn more](#)

Collation *

SQL_Latin1_General_CP1_CI_AS

[Find a collation](#)

Maintenance window

Select a preferred maintenance window from the drop down. Please note, during a maintenance event, Azure SQL Database are fully available and accessible but some of the maintenance updates require a failover as Azure takes SQL

🏠 🔍 📄 📁 🗨️ 27°C Haze ⬆️ 📶 🔊 ENG 13:45

The screenshot displays the Microsoft Azure portal interface. At the top, there's a navigation bar with the Microsoft Azure logo and a search bar. Below it, the breadcrumb trail shows 'Home > Microsoft.SQLDatabase.newDatabaseExistingServer_155c16593e594aad | Overview'. The main content area is titled 'Deployment' and shows a green checkmark icon indicating a successful deployment. A notification banner at the top right states 'Deployment succeeded' with a timestamp of 1:50 PM. The deployment details section shows the deployment name, subscription, and resource group. The right sidebar contains links to the Security Center, Free Microsoft tutorials, and Work with an expert.
